treatment option**

NOW OFFERED AT

West Coast Podiatry Center
Medical and Surgical Management of the Lower Extremity

Treatment for your Toenail Fungus

BEFORE

AFTER 6 MONTHS

AFTER 1 YEAR

Nail fungus is stubborn and can persist for years. ToeFX Light Therapy uses gentle, non-laser light to clear up nails. During treatment, your foot care specialist will prepare your nails, apply a blue serum and then shine a light on the nails.

Slow and steady beats the fungus

Treatment every two weeks has been clinically proven to result in significant clearance of toenail fungus.

Ask your foot care specialist about this treatment today

ToeFX's LED-based light therapy system is safe, painless and has no side-effects. All you need to do is show up for treatment and follow the lifestyle advice from your foot care specialist.

Toe-Tally Happy Patients!

"I no longer have ugly toes. I am so thankful for ToeFX. The progress was quick and I am happy with the results."

"Really pleased with the results and looking forward to having an actual pedicure."

"I've had the infection for 25 years. I'm happy with the ToeFX results. It's a great product that changed my confidence."

"Can't wait to enjoy the summer in sandals, and not having to hide my toes anymore!"

TIPS FOR KEEPING TOENAIL FUNGUS AWAY!

West Coast Podiatry Center
Medical and Surgical Management of the Lower Extremity

DISINFECT YOUR SHOES

If your shoes are new, disinfect them with an antifungal spray or powder, or an ultraviolet shoe sanitizer. If they're old, it may just be time to say goodbye

WEAR BREEZY AND CLEAN SOCKS

Sweat is the enemy when it comes to fungus. Use new socks whenever possible. Used socks must be washed at high temperatures ($> 50^{\circ}\text{C}$), separate from other clothes

WASH SHEETS AND TOWELS

Fungus loves soft, warm places and will make itself at home in your bedsheets and towels. Wash separately at high temperature ($> 50^{\circ}\text{C}$)

DISINFECT THE BATHTUB AND SHOWER FLOOR

Fungus can linger on hard surfaces. Use a disinfectant spray to ensure that no fungus remains

KEEP CLIPPERS TO YOURSELF

Clean your nail clippers with boiling water and wipe down with a paper towel followed by rubbing alcohol

DON'T SCRUB ToeFX SERUM OFF TOENAILS FOR 3 DAYS

Avoid scrubbing ToeFX Serum off for 3 days after treatment. If your clinician has applied a sealing lacquer, use nail polish remover 3 days after treatment

DON'T MISS YOUR NEXT CLINIC TREATMENT

It's important not to miss a treatment to completely eradicate the fungus. The proven, safe and effective ToeFX therapy treatment is approved by the FDA for treating toenail fungus
